How to Order Alteration

Select the alteration model number for the specifications you have in mind for sheath stripping, earth wire, and/or earth terminal size, and add it to the model number.

(Order model number example: NDDJ-PY-E-9-1-04S-05E)

How to obtain a custom number

- (1) Fill in your desired specifications on the "Custom Number Request Sheet" on [P.962/964](#).
- (2) Send the sheet to the indicated fax number.
We will reply thereafter with your 7-digit **Custom Number**.
- (3) When placing your order, add the **identification symbol X** and your **Custom No.** at the end of the model number.
(Order model number example: NDDJ-PY-E-9-1-X-0100001)

Once registered, your Custom No. can be used in any subsequent orders as well.

Custom numbers can also be used in combination with alteration services.
