

Extrusion End Caps

For 8 Series (Slot Width 10mm) Aluminum Extrusions

Features: Standard caps for protecting extrusion end faces. Alterations for Aluminum Extrusions are not necessary.

Type	Material
HFC GFC	Polyamide
HFCL	Low Density Polyethylene

- Some products are not required to specify colors. In that case, color is black.
- The pin's shape and numbers of extrusion end caps may be changed to prevent caps from easily falling off.
- HFCL is not applicable to extrusions with Wrench Hole in Fixed Position (P785), D Type Hole (P790), or L Hole (P793).
- Due to the properties of its material, when HFCL is mounted onto the mating Aluminum extrusion, some dim. variation may be generated.
